Subject Index

Anaemia, aplastic, lymphocyte phenotype and lymphokines following antithymocyte globulin therapy in patients with (PLATANIAS *et al*), 437
Anaemia, aplastic, refractoriness to random donor platelet transfusions in patients with: a multivariate analysis of data from 264 cases (KLINGEMANN *et al*), 115
Anaemia, autoimmune haemolytic, caused by anti-D, a different example of (KANRA *et al*), 432
Anaemia, congenital dyserythropoietic, aberrant pattern of red cell membrane and cytosolic proteins in a case of (POTHIER *et al*), 393
Anaemia, congenital dyserythropoietic, type II (CDA II), glycolipids and glycopeptides of red cell membranes in (ZDEBSKA *et al*), 385
Anaemia in rheumatoid arthritis, blunted erythropoietin response to (BAER *et al*), 559
Anti-Rh(D), IgG1 monoclonal, heterogeneity of: an investigation using ADCC and macrophage binding assays (ARMSTRONG *et al*), 257
Antithrombin III Clichy: an abnormal antithrombin III with low heparin affinity (ALICH *et al*), 515
Antithrombin III Glasgow: a variant with increased heparin affinity

and reduced ability to inactivate thrombin, associated with familial thrombosis (LANE *et al*), 523
Antithrombin III type 3 variants, two abnormal, comparative effect of heparin and heparan sulphate on (FISCHER *et al*), 213
Autografting, peripheral blood stem cell: a new therapeutic option for AML? (TO and JUTTNER), 285
Autoimmunity in 28 patients after allogeneic bone marrow transplantation: comparison with Sjögren syndrome and scleroderma (ROUQUETTE-GALLY *et al*), 45

B-CLL, long survival in correlates with surface IgMκ phenotype (HAMBLIN *et al*), 21
Benzene, chronic lymphoid leukaemia and hairy cell leukaemia due to chronic exposure to: report of three cases (AKSOY), 209
Blast cells in peripheral blood, identification of through automatic assessment of nuclear density: a new tool for monitoring patients with acute leukaemia (D'ONOFRIO *et al*), 473
Bone growth and haemopoiesis: steroid reversible anaemia, myelofibrosis and increased bone formation in a child (MACDOUGALL *et al*), 5
Bone marrow blood flow, assessment using positron emission tomography: no relationship with bone marrow cellularity (MARTIAT *et al*), 307
Book reviews
A Guide to Laboratory Transfusion Practice, 582
Biochemistry of Platelets, 582
Color Atlas of Clinical Haematology, 282
Computerized Quality Control, 283
Current Haematology and Thrombosis, Vol. 5, 581
Future Developments in Blood Banking, 282
Handbook of Haemostasis and Thrombosis, 581
Sickle Cell Diseases: Psychological and Psychosocial Issues, 581

Calcium permeability of cold-stored erythrocytes (MCNAMARA & WILEY), 401
Cerebrospinal fluid in patients with lymphoma or leukaemia, microglobulin, lysozyme and lactoferrin in: relationship to CNS involvement and the effect of prophylactic intrathecal treatment with methotrexate (ÖBERG *et al*), 315
Cianidanol and its metabolites bind tightly to red cells and are responsible for the production of auto- and/or drug-dependent antibodies against these cells (SALAMA & MUELLER-ECKHARDT), 263
Colony forming cells, growth factor- and stroma-dependent, expression of HPCA-1 and HLA-DR antigens on (WATT *et al*), 153
C-reactive protein and cytosine arabinoside (DUDLEY *et al*), 280

Down's syndrome and transient myeloproliferative disorder, characterization of the blast cell population in two neonates with (COULOMBEL *et al*), 69
Dysmegakaryocytopoiesis in acute leukaemias: its predominance in myelomonocytic (M4) leukaemia and implication for poor response to chemotherapy (JINNAI *et al*), 467

ELISA, a microplate, for the detection of platelet alloantibodies: comparison with the platelet immunofluorescence test (SINTNICOLAAS *et al*), 363
Eosinophil production in human bone-marrow cultures induced by 80–85 kDa serum component(s) of patients with eosinophilia (KERN *et al*), 165

Factor VIII deficient plasma, production of, by immunodepletion using three monoclonal antibodies (TAKASE *et al*), 497
Factor VIII, monoclonal antibodies to: their application in immunoblotting for the visualization of factor VIII in therapeutic concentrates and plasma (FURLONG *et al*), 341
Factor IX, coagulation, *in vivo* evidence of intravascular binding sites for (STERN *et al*), 227
Fibrinogen Aarhus and factor XIII induced polymerization and gel formation (HESSEL *et al*), 355
Fibrinolytic parameters in patients with gastrointestinal carcinomas, pattern of (KIRCHHEIMER *et al*), 85

Globin, α-gene arrangements, two different quadruplicate (GU *et al*), 245
Granulocyte antibodies in leukaemic chronic lymphoproliferative disorders (RUSTAGI *et al*), 461

Haematocrit, splenic, and the splenic plasma pool (ZHANG & LEWIS), 97
Haemophiliacs, the spectrum of HIV associated disease in a cohort of (RUGMAN & DAVIES), 433
Heparin sensitivity, variability according to method (SCULLY *et al*), 434
Human immune deficiency virus (HIV), Haematologic manifestations of (ZON *et al*), 251
Human immunodeficiency virus infection, incidence and mechanisms of neutropenia and thrombocytopenia in patients with (MURPHY *et al*), 337

IgG anti-A and anti-B, subclases of, in sera of blood-group-O women with a blood-group-A or -B child, sensitive methods for determining (BROUWERS *et al*), 267
Interferon and B-cell prolymphocytic leukaemia (DELANNOY *et al*), 579
Iron, non-transferrin plasma (HERSHKO & PETO), 149

Lactoferrin uptake and iron processing into macrophages: a study in familial haemochromatosis (MOGUILEVSKY *et al*), 129
Lectin leucoagglutinin binds specifically to human granulocytes, monocytes and tissue mast cells: further evidence for a common origin of the three cell types (SCHUMACHER *et al*), 405
Leukaemia, acute, and chronic lymphoid diseases with leukaemic expression, characteristics of red cell pyruvate kinase (PK) and pyrimidine 5'nucleotidase (P5N) abnormalities in (VIVES CORRONS *et al*), 173
Leukaemia, acute, depressed fibrinolysis in patients with (GUARINI *et al*), 327
Leukaemia, acute lymphoblastic, in a child with familial Pelger-Huet anomaly (ONESON *et al*), 193
Leukaemia, acute monocytic, a new specific chromosomal rearrangement, t(8;16) (p11;p13), in (HEIM *et al*), 323
Leukaemia, acute myeloid, cytological features of 9q− deletions in (HOYLE *et al*), 277
Leukaemia, acute myeloid, serum lysozyme is related to leukaemic subtype in (STARK *et al*), 279
Leukaemia, acute myeloid, the role of intensive remission induction and consolidation therapy in patients with (TRICOT *et al*), 37
Leukaemia, adult acute lymphocytic, relationship of serum lactate dehydrogenase levels with first remission length in (FASOLA *et al*), 49
Leukaemia, B-cell prolymphocytic and interferon (DELANNOY *et al*), 579
Leukaemia blasts, acute myelogenous, in liquid suspension cultures, variable differentiation patterns of (BAER *et al*), 179
Leukaemia, childhood acute lymphoblastic, a case of (ABBONDANZO *et al*), 141
Leukaemia, chronic lymphoid and hairy cell, due to chronic exposure to benzene: report of three cases (AKSOY), 209
Leukaemia, chronic myelogenous, with T lymphoblastic and megakaryoblastic mixed crisis, phenotypic and genotypic analysis of (YASUKAWA *et al*), 331
Leukaemia, chronic myeloid, following relapse post-allogeneic transplant, alpha 2 interferon in (NEWLAND *et al*), 141
Leukaemia, chronic myeloid, promyelocytic crisis of (EMILIA *et al*), 276
Leukaemia, *de novo* acute myeloid, with trilineage myelodysplasia, clinical and laboratory features of (BRITO-BABAPULLE *et al*), 445
Leukaemia, Ph-negative chronic myeloid (FITZGERALD *et al*), 311
Leukaemia, Ph^1 positive chronic granulocytic leukaemia, monosomy 7 in the blast crisis of: incidence and clinico-haematological features (BERNASCONI *et al*), 143
Leukaemia, plasma cell, complete remission in (KRSNIK *et al*), 145
Leukaemia, therapy-related acute nonlymphocytic, preleukaemia and acute myeloproliferative syndrome, cytogenetic character-

istics of: correlation with clinical data for 61 consecutive cases (PEDERSEN-BJERGAARD & PHILIP), 199
Leukaemias, acute. Flow cytochemical patterns of white blood cells in human haematopoietic malignancies. I (DREWINKO *et al*), 27
Leukaemias, acute myeloid, annotations concerning the correlation of the immunophenotypes of leukaemia cells in, with the FAB classification (KEMNITZ *et al*), 279
Lymphocyte proliferations, large granular, heterogeneity of: morphological, immunological and molecular analysis in seven patients (LAURIA *et al*), 187
Lymphoid malignancies, peripheral blood stem cell autografts in the treatment of: initial experience in three patients (BELL *et al*), 63
Lymphoma, composite, immunohistological diagnosis of a case of (SALTER *et al*), 479
Lymphoma, peripheral T-cell, chromosome abnormalities in (LAKKALA-PARANKO *et al*), 451

Malaria, human cerebral, the bone marrow in: parasite sequestration within sinusoids (WICKRAMASINGHE *et al*), 295
Marrow repopulation in mice treated with busulphan or isopropyl methane sulphonate and bone marrow (MASSA *et al*), 11
Myelodysplasia, α-interferon in (GALVANI *et al*), 145
Myelodysplastic syndrome, a randomized trial of 13-cis retinoic acid with or without cytosine arabinsode in patients with (CLARK *et al*), 77
Myelofibrosis, idiopathic chronic, cytogenetics of bone marrow fibroblastic cells in (GREENBERG *et al*), 487
Myelofibrosis, idiopathic, 1,25 dihydroxy-vitamin D_3 (1,25 $(OH)_2$ vit D_3) in the treatment of (DUNCOMBE *et al*), 579
Myeloma, multiple, treated with high dose intravenous melphalan (SELBY *et al*), 55
Myeloma, plasmablastic multiple: an immunologically different subtype (SAN MIGUEL *et al*), 275
Myeloproliferative disease in two infants associated with eosinophilia and chromosome t(1;5) translocation (DARBYSHIRE *et al*), 483

Neutropenic patients, febrile, an evaluation of empirical antibiotic therapy in (BARNES & ROGERS), 137

Pelger-Huet anomaly, familial, acute lymphoblastic leukaemia in a child with (ONESON *et al*), 193
Phagocytosis, antiglobulin serum mediated, of normal senescent and oxidized RBC: role of anti-IgM immunoglobulins in phagocytic recognition (LEB *et al*), 565
Phagocytosis, measurement utilizing [^{14}C]cyanate-labelled human red cells and monocytes (BUSSOLINO *et al*), 271
Philadelphia chromosome: from cytogenetics to oncogenes (GOLDMAN), 435
Platelet activating factor, *in vitro* and *in vivo* effects of treatment by, on N-formyl-met-leu-phe-mediated responses of polymorphonuclear leucocytes (INGRAHAM *et al*), 219
Platelet aggregation by myeloid leukaemic cells deomonstrated *in vitro*, inhibition of (FÄLDT *et al*), 529
Platelet alloantigen Zw^a or PI^{A1} is expressed by cultured endothelial cells (LEEKSMA *et al*), 369
Platelet concentrates stored for seven days in a platelet additive solution, improved *in vivo* and *in vitro* viability of (HOLME *et al*), 233
Platelet concentrates, stored, pre-transfusion non-invasive quality assessment of (BELLHOUSE *et al*), 503
Platelet glycoprotein IIb as a target antigen in two patients with chronic idiopathic thrombocytopenic purpura (TOMIYAMA *et al*), 535
Platelet reactions after interaction with cultured *Plasmodium falciparum* infected erythrocytes (INYANG *et al*), 375
Prothrombin Poissy: a new variant of human prothrombin (DUMONT *et al*), 239
Purpura, HIV-related thrombocytopenic, response to therapy in 37 patients with (OKSENHENDLER *et al*), 491
Purpura, idiopathic thrombocytopenic, chronic, platelet glycoprotein IIb as a target antigen in two patients with (TOMIYAMA *et al*), 535
Purpura, post-transfusion, secondary to passive transfer of anti-PI^{A1} by blood transfusion (BALLEM *et al*), 113
Purpura, thrombotic thrombocytopenic, relationship between platelet aggregating factor and von Willebrand factor in (MURPHY *et al*), 509
Pyrimidine nucleoside monophosphate kinase hyperactivity in hereditary erythrocyte pyrimidine 5′-nucleotidase deficiency (LACHANT *et al*), 91

Red cell filterability and cell size (STUART *et al*), 431

Sickle cell disease in North London (KEHINDE *et al*), 543
Sickle cell disease, steady state homozygous, the haematology of: interrelationships between haematological indices (MAUDE *et al*), 549
Stromal stem cells (CFU-f) in yolk sac, liver, spleen and bone marrow of pre- and postnatal mice (VAN DEN HEUVEL *et al*), 15

Thalassaemia, β, Bayesian analysis of DNA haplotype associations in, and applications to prenatal diagnosis (LIN & ROTTER), 146
Thalassaemia defect, a new α°, in the South African population, characterization of (VANDENPLAS *et al*), 539
Thalassaemia, β, in Greece, DNA haplotype heterogeneity of: feasibility of prenatal diagnosis (ATHANASSIADOU *et al*), 379
Thalassaemia, heterozygous β, erythrokinetics and iron status in, and the effect of interaction with α thalassaemia (PIPPARD & WAINSCOAT), 123
Thalassaemia intermedia, a benign form of, may be determined by the interaction of triplicated α locus and heterozygous β-thalassaemia (CAMASCHELLA *et al*), 103
Thalassaemia intermedia: interaction of the triple α-globin gene arrangement and heterozygous β-thalassaemia (KULOZIK *et al*), 109
Thrombocythaemia, essential, colony formation by megakaryocytic progenitors in (JUVONEN *et al*), 161
Thromboplastin and oral anticoagulant control (LEWIS), 1

Urokinase, interaction of, with specific receptors, abolishes the time of commitment to terminal differentiation of murine eythroleukaemia (Friend) cells (DEL ROSSO *et al*), 289

von Willebrand's disease, type IIB, with probable autosomal recessive inheritance and presenting as thrombocytopenia in infancy (DONNÉR *et al*), 349
